***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-11, 13, 15-23, and 25, drawn to method of dispensing prescriptions in combination with detailed authorizing steps, classified in class 700, subclass 237.
  - II. Claims 1, 12, 15, and 24, drawn to method of dispensing prescriptions in combination with utilizing a picker assembly, classified in class 700, subclass 231.
  - III. Claims 1, 14, 15, and 26, drawn to method of dispensing prescriptions in combination with labeling of the prescriptions, classified in class 700, subclass 235.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II, I and III, II and III are related as subcombinations disclosed as usable together in a single combination with claim 1 serving as a linking claim. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as for used in a prescription dispensing method without the specifics of utilizing the picker assembly. In the instant case, invention II has separate utility such as for used in a prescription dispensing method without the specifics of the identification steps. In the instant case, invention III has separate utility such as for used in a prescription dispensing and labeling method without the specifics of the identification steps. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

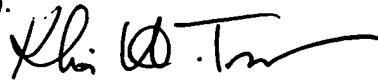

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
